

VOLVO S90

Two Hearts, One Car.

With advanced powertrain technologies, such as electrification, we aim to provide you with an unrivalled driving experience. In fact, we've focused on electrification and plug-in hybrid technology for more than 40 years. This experience together with advanced research put Volvo Cars in the forefront of technology, and our latest powertrain advancement – the high-performance T8 Twin Engine AWD with plug-in hybrid technology – allows you to enjoy an involving drive as well as cutting CO₂ emissions. With 407hp the combination of a four-cylinder petrol engine and powerful electric motor offers power and performance of a much larger engine, but use much less fuel. The T8 Twin Engine AWD gives you the best of both worlds. Power without compromise.
