

# THE VOLVO S90

The Volvo S90 puts you at the heart of a luxury experience. An experience where intelligent, beautiful design works in harmony with cutting-edge innovation. With Volvo's in-car infotainment system, Sensus, the majority of functions inside the vehicle are controlled via an intuitive 9" centre touchscreen, removing the need for physical buttons which allows for a cleaner and simpler user interface. Pilot Assist automatically maintains a set speed or distance to the car in front, as well as giving gentle steering inputs to keep you properly aligned within your lane markings.

## LEADING THE WAY IN EMISSIONS TESTING

We were the first UK car manufacturer to homologate its entire model range under the new Worldwide Harmonised Light Vehicle Test Procedure (WLTP). So you can rest assured that you're making a more informed fleet decision with Volvo.

All of our figures are available to view right now, so you have everything you need to choose with confidence. Based closer to real-life driving situations, WLTP allows for greater accuracy than ever before. In a shifting landscape you can enjoy complete peace of mind with figures you and your business can trust.

\*Vehicles with a retail price over £40,000 (including paint, options, packs and delivery costs) when new pay an additional rate of £310 per year on top of the Standard Rate, for five years.

\*\*Figures are dependent on trim level.

MPG figures are obtained from laboratory testing intended for comparisons between vehicles and may not reflect real driving results.
