

DOG GATE

SAFETY AND SECURITY

Available for Models

XC90, V90, V90CC

Facts and Advantages

- Attractive Volvo design
- Safe and secure travel for your pet
- Easy to fit and remove
- Meets Volvo's stringent collision safety requirements
- Lockable (two keys included)

Technical Specifications

Material: Steel

Color: Charcoal

Accessory Weight: 10 lbs (4.7 kg)

The Dog Gate helps keep a pet safe and secure in the vehicle. It's uniquely designed to fit the vehicle's luggage compartment. Combined with the Protective Grille and Load Compartment Divider, one or two separate dog compartments can be created. The gate is easy to open, close and remove from the vehicle.

The Dog Gate has a locking handle so you can have the trunk lid open while the compartment is still secure. Your pet gets fresh air without having to leave the vehicle.

Notes

The third row of seats cannot be used when the Dog Gate is installed.

The Dog Gate cannot be used in combination with the Reversible Compartment Mat, Plastic Load Compartment Mat, Load Compartment Net or Luggage Compartment Cover.
