

# LOAD COMPARTMENT DIVIDER

DIVIDE AND CONQUER

## Available for Models

XC90, V90, V90CC

## Facts and Advantages

- Attractive Volvo branded design
- Ideal for separating pets or loads into two sections
- Crash tested to Volvo's stringent safety requirements
- Rigid construction

## Technical Specifications

Material: Steel

Color: Charcoal

Accessory Weight: 8.8 lbs (4.0 kg)

The Load Compartment Divider lets you separate the trunk space lengthwise to make two compartments.

The Divider is installed together with the Steel Protective Grill. This enables the transport of either two pets or one pet on one side and objects such as luggage on the other.

The Load Compartment Divider is designed and crash tested to Volvo's specifications for optimal performance in the event of a collision.

## Notes

The third row of seats cannot be used when the Load Compartment Divider is installed.

The Divider cannot be used in combination with the Reversible Compartment Mat, Plastic Load Compartment Mat, Load Compartment Net or Luggage Compartment Cover.
